

**UNITED STATES DISTRICT COURT  
DISTRICT OF NEVADA**

## PLAYUP, INC.,

**Plaintiff(s),**

V.

DR. LAILA MINTAS,

Defendant(s).

Case No. 2:21-cv-02129-GMN-NJK

Order

[Docket Nos. 586, 596]

Pending before the Court is Defendant/Counter-Claimant Laila Mintas' renewed motion for a forensic examination or to compel. Docket No. 586. Counter-Defendant Daniel Simic filed a response in opposition. 594. Mintas filed a reply. 595. Simic filed a motion for leave to file a surreply. Docket No. 596. Mintas filed a response. Docket No. 597. Simic filed a reply. Docket No. 598. The motions are properly resolved without a hearing. *See* Local Rule 78-1. For the reasons discussed below, Mintas' motion for a forensic examination is **DENIED** without prejudice and her alternative motion to compel is **GRANTED**. The motion for leave to file a surreply is **GRANTED**.<sup>1</sup>

18 | I. BACKGROUND

19 This case arises from a soured business relationship, resulting in the termination of Mintas  
20 as CEO, competing allegations of wrongful conduct, and competing claims for tens of millions of  
21 dollars in damages. These circumstances are no doubt personal for all involved—and the case  
22 involves a lot of money—which has spawned a contentious and messy discovery process.

Mintas previously filed a motion for a forensic examination or to compel, with the Court denying without prejudice the former and granting the latter. Docket No. 546. The Court ordered Simic “to engage in a thorough search for responsive documents and produce those responsive

<sup>27</sup> The Court declines to consider herein the new arguments raised in reply, *see, e.g., Brand v. Kijakazi*, 575 F. Supp. 3d 1265, 1273 (D. Nev. 2021), and the surreply will be granted to the extent it requests that relief, *see Docket No. 596-2 at 4.*

1 documents. Simic must also serve a declaration attested to under penalty of perjury as to the details  
 2 of the search undertaken and that all responsive documents have been produced.” *Id.* at 9. Mintas  
 3 has now renewed her motion for a forensic examination or to compel. Docket No. 586.

4 **II. STANDARDS**

5 The discovery rules permit a party to request to inspect, copy, test, or sample electronically  
 6 stored information or designated tangible things. Fed. R. Civ. P. 34(a)(1). This rule provides a  
 7 basis on which the Court may order a forensic examination in appropriate circumstances:

8 Computer forensics involves the location, examination,  
 9 identification, collection, preservation, and analysis of computer  
 10 systems and electronically stored information. Forensic  
 11 examination is unlike the traditional discovery process in that the  
 12 subject party is required to open its physical premises and electronic  
 13 systems to a third-party expert. The subject party monitors the third  
 14 party “throughout a lengthy process of ‘imaging’ (creating mirror  
 15 images of certain computer storage devices) and searching the  
 16 party’s computer network, and must bear the risk of any inadvertent  
 17 damage or disruption to its systems.”  
 18

19 *Gergawy v. U.S. Bakery, Inc.*, No. 2:19-cv-00417-SAB, 2021 WL 6139419, at \*2 (E.D. Wash.  
 20 Aug. 24, 2021) (internal citations omitted).

21 “Courts in this circuit have been reluctant to grant motions compelling forensic  
 22 examinations of a party’s computers.” *SGII, Inc. v. Suon*, No. 8:21-cv-01168-DOC (JDEx), 2021  
 23 WL 6752324, at \*9 (C.D. Cal. Dec. 29, 2021).<sup>2</sup> In considering whether the circumstances warrant  
 24 a forensic examination, courts will consider several factors:

25 A determination of whether the circumstances justify forensic  
 26 imaging requires consideration of whether the responding party has  
 27 withheld requested information, whether the responding party is  
 28

---

29 <sup>2</sup> There are several reasons for exercising caution before allowing a forensic examination.  
 30 Such a procedure runs counter to the paradigm that “litigants are generally responsible for  
 31 preserving [and producing] relevant information on their own.” *John B. v. Goetz*, 531 F.3d 448,  
 32 459 (6th Cir. 2008). Courts also recognize that computers, cell phones, and other electronic  
 33 devices are not simply “technological convenience[s]. With all they contain and all they may  
 34 reveal, they hold for many Americans ‘the privacies of life.’” *Riley v. Cal.*, 573 U.S. 373, 403  
 35 (2014); *see also Henson v. Turn, Inc.*, No. 15-cv-01497-JSW (LB), 2018 WL 5281629, at \*6 (N.D.  
 36 Cal. Oct. 22, 2018). “Inspection or testing of certain types of electronically stored information  
 37 may raise issues of confidentiality or privacy. . . . Courts should guard against undue intrusiveness  
 38 resulting from inspecting and testing such systems.” Fed. R. Civ. P. 34(a), Advisory Comm. Notes  
 39 (2006). “[C]ourts must consider the significant interests implicated by forensic imaging before  
 40 ordering such procedures.” *John B.*, 531 F.3d at 460.

unable or unwilling to search for the requested information, and the extent to which the responding party has complied with discovery requests. The scales tip in favor of compelling forensic imaging where there exists evidence of either discrepancies in a discovery response or a failure by the responding party to produce requested information.

*United Artists Corp. v. United Artists Studios LLC*, No. 2:19-cv-00828-MWF-MAAx, 2019 WL 9049050, at \*9 (C.D. Cal. Oct. 7, 2019) (quotations and internal citations omitted). A forensic examination is appropriate when there are “serious questions” about the reliability or completeness of the materials produced, *Advante Int'l Corp. v. Mintel Learning Tech.*, No. C 05-01022 JW (RS), 2006 WL 3371576, at \*1 (N.D. Cal. Nov. 21, 2006), or about the “candor” of the producing party’s assertions, *Ignite Spirits, Inc. v. Consulting by AR, LLC*, No. 2:21-cv-01590-JCM-EJY, 2022 WL 3346754, at \*3 (D. Nev. Aug. 11, 2022).

The party seeking a forensic examination bears the burden of showing that such relief is warranted based on the circumstances of a particular case. *E.g., A.M. Castle & Co. v. Byrne*, 123 F. Supp. 3d 895, 908 (S.D. Tex. 2015); *MGA Ent., Inc. v. Nat'l Prods. Ltd.*, No. CV 10-07083 JAK (SSx), 2012 WL 12886446, at \*2 (C.D. Cal. Jan. 26, 2012).<sup>3</sup> A forensic examination is warranted only upon “a strong showing” that the opposing party has defaulted on its discovery obligations. *Motorola Solutions*, 314 F. Supp. 3d at 939. Whether to permit a forensic examination is a matter entrusted to the broad discretion of the trial court. *Gopher Media, LLC v. Spain*, No. 3:19-cv-02280-CAB-KSC, 2020 WL 5748093, at \*1 (S.D. Cal. Sept. 25, 2020); *see also Hallett v. Morgan*, 296 F.3d 732, 751 (9th Cir. 2002).

### III. ANALYSIS

Mintas is now before the Court seeking renewed relief predicated essentially on two issues: (1) whether Simic was required to produce responsive documents in native format; and (2) whether

---

<sup>3</sup> There is inconsistency in the case law as to the burden of persuasion on a motion for forensic examination. *See Sophia & Chloe, Inc. v. Brighton Collectibles, Inc.*, No. 12cv2472-AJB(KSC), 2014 WL 12642170, at \*3 (S.D. Cal. May 28, 2014) (placing burden on party resisting forensic examination). The Court is also mindful that the Ninth Circuit has indicated that the burden is generally on a party seeking to avoid discovery given “the liberal discovery principles of the Federal Rules.” *Blankenship v. Hearst Corp.* 519 F.2d 418, 429 (9th Cir. 1975). On the other hand, a motion to compel a forensic examination is not subject to liberal discovery principles and is disfavored. The burden of persuasion is properly placed on the party seeking the forensic examination. *See Motorola Sols., Inc. v. Hytera Comms. Corp.*, 314 F. Supp. 3d 931, 939 (N.D. Ill. 2019).

1 Simic's declaration as to the search undertaken is deficient. The Court agrees with Mintas on both  
 2 fronts, but the Court also finds that compelling further compliance is the appropriate remedy as  
 3 opposed to ordering a forensic examination at this juncture.

4       A. Document Format

5       Mintas argues that she indicated in the pertinent requests for production that documents  
 6 had to be produced in native format and that Simic's production is insufficient because the  
 7 documents were provided in PDF format. *See, e.g.*, Docket No. 586 at 8-11. Simic counters that  
 8 the parties' prior course of conduct did not enforce requests for production in native format and  
 9 that doing so now is an undue burden. *See, e.g.*, Docket No. 594 at 11-14. The Court agrees with  
 10 Mintas that the PDF production is insufficient.

11       The Federal Rules allow a party propounding discovery to specify the format of the  
 12 responsive document production. Fed. R. Civ. P. 34(b)(1)(C). Simic has failed to meaningfully  
 13 explain why the parties' prior course of conduct would override the demand in particular sets of  
 14 requests for production that require native format. Moreover, Simic did not timely object as to  
 15 this format, *but see Morgan Hill Concerned Parents Assoc. v. Cal. Dept. of Ed.*, No. 2:11-cv-3471  
 16 KJM AC, 2017 WL 445722, at \*3-4 (E.D. Cal. Feb. 2, 2017), and he has provided no evidentiary  
 17 showing to support his undue burden now at any rate, *but see, e.g., Nationstar Mortg., LLC*, 316  
 18 F.R.D. 327, 334 (D. Nev. 2016) (quoting *Jackson v. Montgomery Ward & Co.*, 173 F.R.D. 524,  
 19 529 (D. Nev. 1997)).<sup>4</sup>

20       Accordingly, the Court agrees with Mintas that Simic's production is insufficient in that it  
 21 was not made in native format.

22       B. Search Efforts

23       The Court ordered Simic to provide a declaration attesting to the "details" of his search  
 24 efforts. Docket No. 546 at 9. As the cases cited in that order make plain, these details must be  
 25 provided "with sufficient specificity to allow the Court to determine whether the party made a  
 26 reasonable inquiry and exercised due diligence." *V5 Techs. v. Switch, Ltd.*, 332 F.R.D. 356, 367  
 27

---

28       <sup>4</sup> The Court is unpersuaded by Simic's argument that the circumstances show that native  
 format is "not available." Docket No. 594 at 13.

1 (D. Nev. 2019) (quoting *Rogers v. Giurbino*, 288 F.R.D. 469, 485 (S.D. Cal. 2012)). Even more  
 2 so in the context of electronically stored information, a properly detailed accounting of the search  
 3 must be provided and parties are urged that this is meant to be an open and transparent process.  
 4 *V5 Technologies*, 332 F.R.D. at 367.

5 Simic's declaration is insufficient. He noted the categories of documents on which he  
 6 "focused the search," Docket No. 586-3 at ¶ 6, and then provided as follows:

7 To search for documents to comply with the Order and locate  
 8 responsive and compliant documents: (a) I searched my company  
 9 email (daniel.simic@playup.com); (b) I personally searched my test  
 10 [sic] messages, WhatsApp, Signal, laptop, and Microsoft Teams for  
 11 information responsive to the requests in the Order; (c) I searched a  
 12 drive I had provided to counsel of documents and communications;  
 13 and (d) counsel searched through the set of documents produced by  
 14 non-party PlayUp Ltd. in the Australian Action.

15 *Id.* at ¶ 7. This description says what was searched in some ways, but it fails to specify with  
 16 sufficient particularity what was actually searched. Other than the specific company email address,  
 17 the other potential sources searched are left vague.<sup>5</sup> Even more concerning, the search does not  
 18 explain *how* these sources were searched. There are no search terms identified or even a basic  
 19 explanation of the manner of searching. Simply stating that a search was conducted of a potential  
 20 source of responsive documents is plainly insufficient. *See V5 Techs.*, 332 F.R.D. at 367 (finding  
 21 insufficient attestation that the declarant "checked for any text messages and [she] had none").<sup>6</sup>

22 Accordingly, the Court agrees with Mintas that Simic's declaration is insufficient.

---

23 <sup>5</sup> By way of example, the declaration is not clear as to the source of text messages. The  
 24 Court needs to gauge whether all reasonable sources of responsive documents were searched, so  
 25 the declaration must provide with specificity the accounts or items being searched.

26 <sup>6</sup> Simic touts that his counsel "sent opposing counsel a proposal offering a three-hour  
 27 deposition of Mr. Simic focused on his supplemental court-ordered production, his document  
 28 search efforts, and his supporting declaration." Docket No. 594-1 at ¶ 13. But this offer was  
 29 conditioned on Mintas promising to forego any future motion practice. *See* Docket No. 594-4 at  
 30 2. Such a proposal is nonsensical because the whole point in detailing the search undertaken is for  
 31 Mintas (and, if necessary, the Court) to determine whether a proper search was actually conducted  
 32 or whether further relief is warranted. *V5 Technologies*, 332 F.R.D. at 367.

1        C.     Relief Warranted

2           Although the Court previously had serious concerns that have not as of yet been assuaged  
3 given the more recent issues, the Court finds the proper approach is to afford a final opportunity  
4 for Simic to rectify the discovery issues identified above. *See* Docket No. 246 at 9. Simic must  
5 produce the responsive documents in native format by January 24, 2025. Simic must also provide  
6 a supplemental declaration detailing his search efforts, including specific identification of each  
7 item/account searched and the manner of search undertaken (with any search terms identified), by  
8 January 24, 2025.

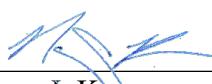

9           This order is without prejudice to Mintas renewing her motion for forensic examination in  
10 the event that Simic's search and production efforts are lacking. In the event that Mintas has  
11 reasonable grounds thereafter to compel a forensic examination as to Simic, she must promptly  
12 confer on that issue and file any such renewed motion by February 14, 2025.

13 **IV. CONCLUSION**

14           For the reasons discussed above, Mintas' motion for a forensic examination is **DENIED**  
15 without prejudice and her alternative motion to compel is **GRANTED**. Docket No. 586. The  
16 motion for leave to file a surreply is **GRANTED** to the extent it asks the Court not to consider  
17 herein the new arguments in Mintas' reply. Docket No. 596.

18           IT IS SO ORDERED.

19           Dated: January 3, 2025

20
